

Sprint 2 Plan

Product Name: FinPrint

Team Name: FinPrint Team

Sprint completion date: 2/25/17

Goal:

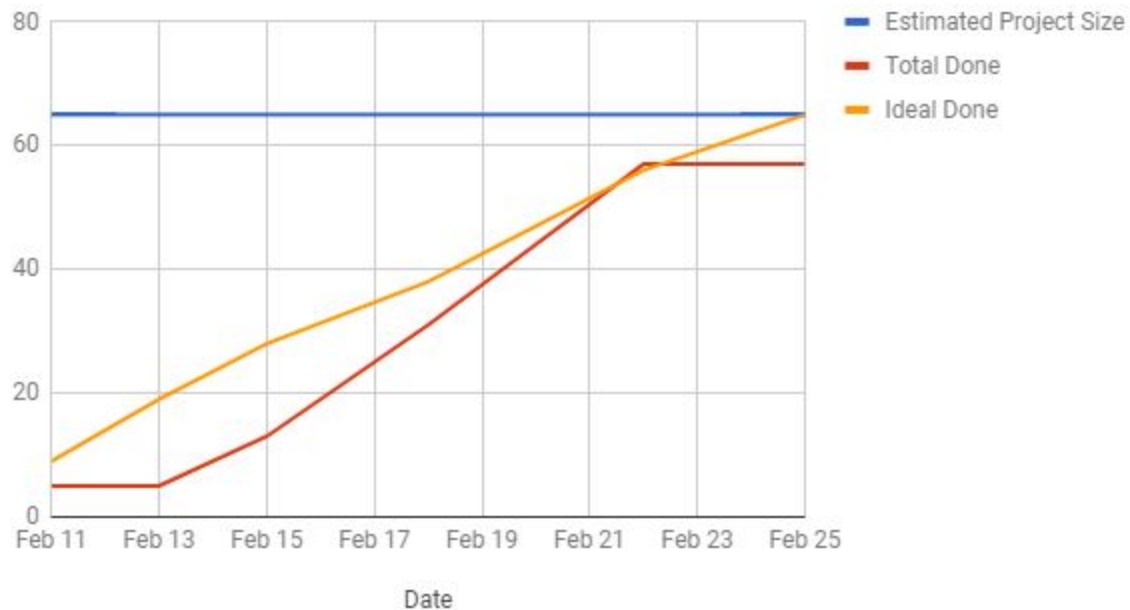

By the end of sprint 2 we want to have user authentication working, for the database to be linked to the website, and for file uploading/downloading to be implemented.

Task listing, organized by user story:

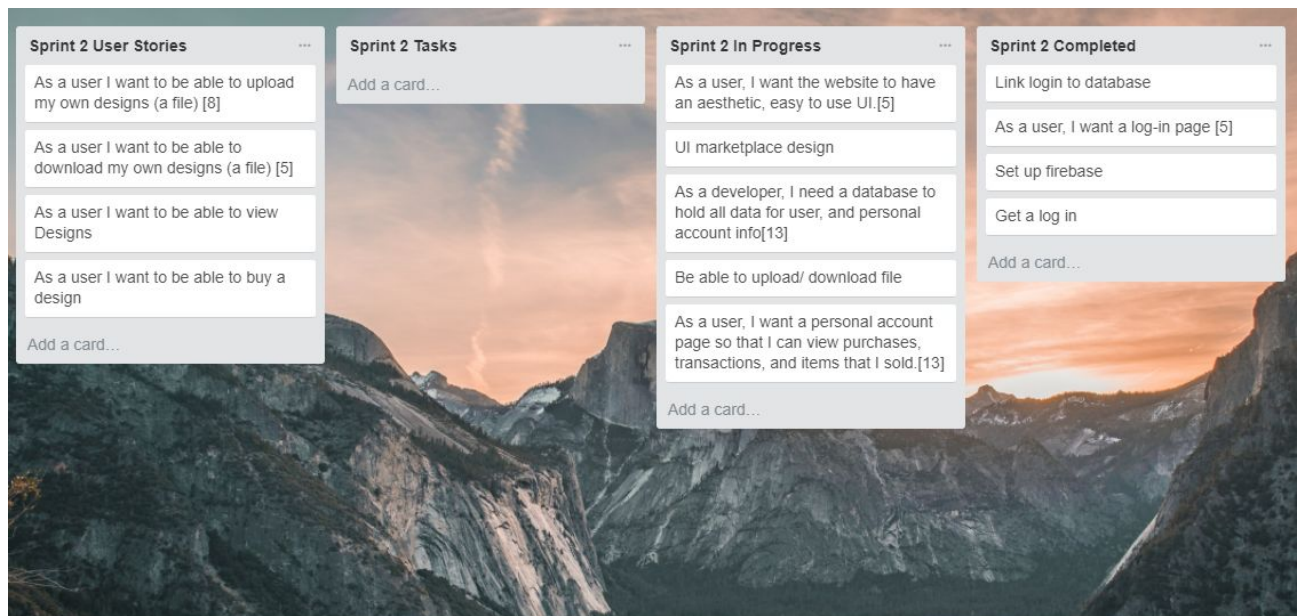

1. As a user, I want a login page
 - 1.1. Ensure page links work (1)
 - 1.2. Enable user authentication (2)
 - 1.3. Create webpage (2)
2. As a user, I want the website to have an aesthetic, easy to use UI
 - 2.1. Format pages with css (2)
3. As a user, I want a database to hold user data
 - 3.1. Set up database with firebase (2)
 - 3.2. Link database with website (2)
4. As a user, I want a personal account page where I can view my transactions, uploads, and designs
 - 4.1. Make sure page links are working (1)
 - 4.2. Create account page (2)
 - 4.3. Allow database entries to be seen on profile page (2)
5. As a user, I want to be able to upload/download designs
 - 5.1. Create button for uploading (1)
 - 5.2. Separate button for downloading (1)
 - 5.3. Implement file uploading to database through button (3)
