

Sprint 1 Plan

Product Name: FinPrint

Team Name: FinPrint Team

Sprint completion date: 2/11/18

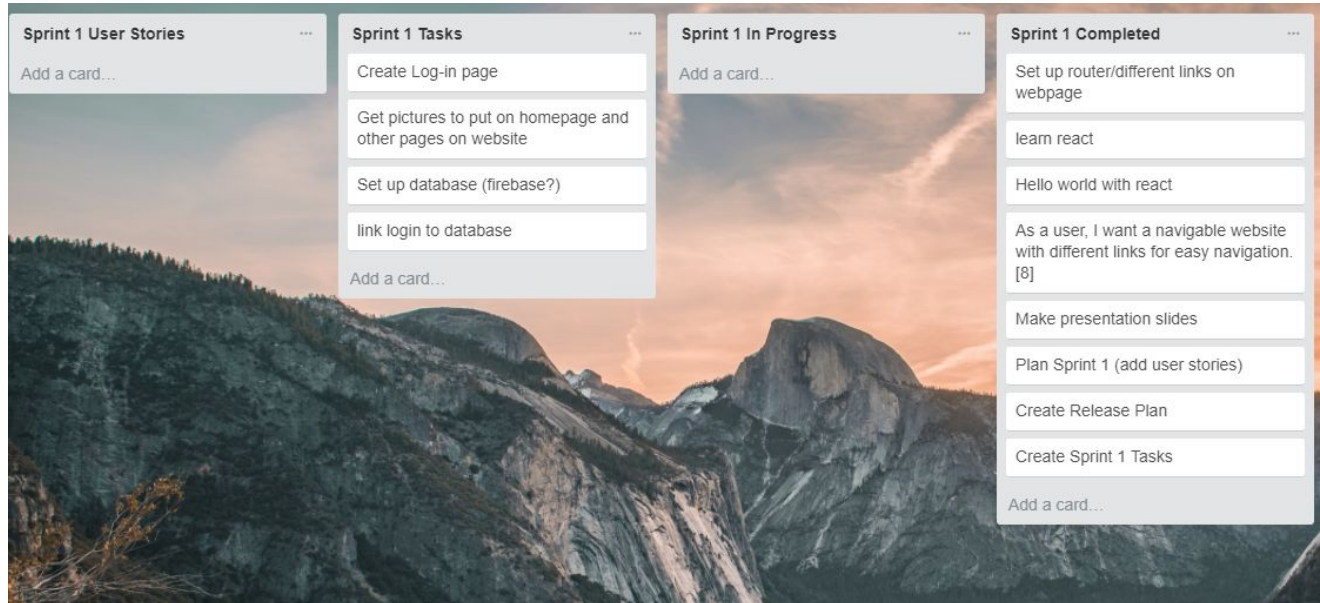

Goal:

By the end of sprint 1 we will have the basic ui and db functionality of the FinPrint site. These goals include basic UI (HomePage,Profile,Designs pages, as well as a header), database (Firestore), and some basic graphics.

Task listing, organized by user story:

1. As a user I want an easy way to navigate between different pages
 - Task 1(2): Create Links
 - Task 2(3): Set links so that you can move between pages
 - Task 3(3): Enable these to be referenced no matter the page
2. As a user I want the site to be visually appealing .
 - Task 1(2): Create and utilize a logo
3. As a user I want a place to store my designs and user information
 - Task 1(3): Setup Firestore with the program
 - Task 2(5): Create a way to reference the database
4. As a user I want a stylized header that transcends pages
 - Task1(3):Create a stylized header that can show the Links and is available on all pages
5. As a user I want to be able to view all the designs I had uploaded
 - Task1(2):Create an area to view my own designs
 - Task2(3):Learn how to look at designs
 - Task3(3):Implement a way to view a design
6. As a user I want to have a profile page all my own
 - Task1(2): Create a generic Profile page
 - Task2(5): Be able to add customization to your own page
 - Task3(1): Be able to look at your user credentials on the page

Sprint 1 Scrum Board:

Team Roles:

- Erik Lau (Product Owner)
- David Ip (Scrum Master)
- Kevin Crum (Developer)
