Sprint 3 Plan
Product Name: FinPrint
Team Name: FinPrint Team
Sprint completion date: 3/13/17

Goal:

     By the end of sprint 3 we want to have protected routes, loaded user information into the database, and rendering the designs page with products that the users have uploaded.

Task listing, organized by user story:

   1. As a user, I would like to view all designs of fins on a designs page.
- Task 1(3): Create designs page

    2. As a user, I want to able to see all the fin designs I uploaded.
- Task 1(8): Pull from database
- Task 2(8): Render uploaded pictures

    3. As a user, I want to have my own profile page.
- Task 1(3): Create Profile page

    4. As a user, I want to upload my design to the site.
- Task 1(5): Create Upload button
- Task 2(13): Tied upload to database

    5. As a developer, I want pictures to be tied to users in the database.
- Task 1(5): Add picture
- Task 2(13): Tie picture to user

    6. As a developer, I want product names to be tied to users in the database.
- Task 1(5): Add product names
- Task 2(13): Tie product names to user

    7. As a developer, I want prices of products to be tied to users in the database.
- Task 1(5): Add prices of products
- Task 2(13): Tie prices of products to user

    8. As a developer, I want description of products to be tied to users in the database.
- Task 1(5): Add description of products
- Task 2(13): Tie description of products to user
